

OROFOODSUPPLY

YOUR TRUSTED SUPPLIER

Premium dates delivered worldwide

About Us

- **Our History**

Orofoodsupply's journey began in 2013 with two passionate individuals sourcing high-quality dates directly from farmers in southern Iran. Despite early challenges, including a significant setback due to fraud, they persevered by acquiring a mini-truck and distributing dates to shops in Tehran and Alborz provinces. By 2015, they had established their own shop and cold-storage facility, securing exclusive distribution rights for a prominent dates brand in Alborz province. Over the years, they expanded their clientele to include retail chain stores and, in 2018, opened a second storage facility, growing their team across various departments. In 2022, they established their own packing factory, increasing their packing capacity to 5.5 tons per day and building a robust network of wholesale customers across five provinces. By 2024, with the necessary infrastructure, certifications, and a reputation for excellence, they ventured into the global market, aiming to deliver premium-quality dates at competitive prices worldwide.

- **Our Mission**

To bridge the gap between traditional agricultural practices and modern export needs, ensuring that customers worldwide enjoy the finest dates nature has to offer.

Product Portfolio

- **Piarom dates**

This type of dates is cultivated exclusively in Hormozgan (Hajiabad), Bushehr, and Fars provinces of Iran. Mostly exported. The length of it is 3.5 to 5 CM and the diameter is about 2 CM. The weight of it is between 10 to 12 grams per piece.

- **Khasouie dates**

This type is cultivated in Hormozgan (Hajiabad), Bushehr, and Fars Provinces of Iran. It is one of the smallest dates in the world. Extremely nutrient full of different ingredients like protein, Vit A and to some extent Vit B.

- **Kabkab dates**

This type of semi-dry dates is cultivated in Bushehr, Fars (Khesht), and Khuzestan provinces of Iran. With a soft tissue and desirable taste it is one of the most favorite by consumers in compact packs. The fruit's size is about 4-5 CM in length and 3 CM in diameter and the weight varies between 12-18 grams per piece.

- **Zahidi dates**

Locally called Ghasb dates and mostly grown in southern of Khuzestan, Bushehr, Fars (Farashband) and Hormozgan (Posht Kooch) Provinces of Iran. It's a dry type of dates. The length of it is 3-4 CM and the diameter about 2 CM. The weight of it varies between 7-9 grams per piece.

Harvesting and QC

- Careful Harvesting for Premium Quality

Our dates are harvested at the peak of ripeness, ensuring optimal sweetness, texture, and nutritional value. We work closely with experienced farmers who handpick each date with precision to prevent damage and preserve freshness. By using sustainable farming methods and advanced agricultural practices, we ensure that only the finest quality fruit is selected for processing.

- Stringent Sorting & Grading

Once harvested, the dates undergo rigorous sorting and grading processes. Our skilled team carefully examines each batch based on size, moisture content, color, and texture. Only dates that meet our high-quality standards proceed to the next stage, ensuring consistency and superior taste in every pack.

- Advanced Cleaning & Processing

We use state-of-the-art cleaning and sterilization methods to remove any impurities while preserving the natural flavor and nutrients of the fruit. Our modern processing facility follows strict hygiene protocols, adhering to international food safety standards to maintain product integrity.

- Temperature-Controlled Storage

To retain freshness and extend shelf life, our dates are stored in specialized cold-storage facilities with controlled humidity and temperature levels. This ensures that they reach customers in perfect condition, no matter the destination.

- Strict Quality Assurance & Certification

Every batch undergoes multiple quality control checkpoints before packaging. Our quality assurance team follows international export regulations, ensuring compliance with HACCP, ISO, and other food safety certifications. This guarantees that our customers receive only the best, premium-quality dates.

- Commitment to Excellence

From farm to packaging, we take pride in delivering dates that exceed expectations in terms of taste, texture, and freshness. Our commitment to quality control is at the core of our success, ensuring that our products meet global standards and customer satisfaction.

Packaging and Exporting

- **Retail**

Different PP5 plastic packs or pouches with different capacities from 400 grams to 1500 grams (+private labeling and designing, with the capacity of using any pack of your desire)
